# INTRODUCTION

CoinLiveWatch.com is a free Cryptocurrency Price Tracker and Crypto News Portal that provides you with Crypto news, market coverage with live coin prices, crypto charts, volume and crypto market-cap featuring Top 5000 coins. Whether you're investing in Bitcoin, Ethereum or Altcoins, our platform is a great way to stay on top of your holdings and keep up with the latest market activity.

The CoinLiveWatch Token (CLWT) is a decentralized utility token based on the BNB Smart Chain.

CLWT is designed to enhance the Coin Live Watch ecosystem.

Whether you are an experienced crypto investor or a newbie in the field, our token is easy to trade.

You'll benefit from fast transaction speeds and low fees, making it the perfect choice for anyone looking to save time and money.

There are no additional taxes.

Token holders will be able to access premium features, goods and services in our ecosystem in the future.

# BLOCKCHAIN

The CoinLiveWatch Token is created on the BNB Smart Chain (BSC) network using BEP20 standard.

The BNB Smart Chain (BSC) is a blockchain network created by Binance, one of the world's largest cryptocurrency exchanges. BSC is a parallel blockchain to Binance Chain and is designed to support decentralized applications (DApps) and smart contracts, similar to Ethereum, but with faster transaction speeds and lower fees. Binance Smart Chain offers many features and advantages, including high speed and low fees, interoperability with other blockchains, and a growing ecosystem of decentralized applications and services.

# TOKEN DETAILS

- Token Name: CoinLiveWatch
- Symbol: CLWT
- Contract:  
0x45fb3819F52e6563fab7509775Af02E989A2F571
- Total Supply: 21,000,000
- Decimals: 18
- Token Type: BSC / BEP-20

Token Logo

**Token Supply:** The maximum Token supply is 21,000,000 Token.

**MARKETING:** We have created a marketing wallet, to ensure on covering marketing expenses for the upcoming months.

# ROADMAP

## PHASE 1

### Token Sale

- Token Development;
- Presale;
- Token Launch;

## PHASE 2

### Token Launch

- Launch;
- Listing on CMC and CoinGecko;
- Listing on DEX PancakeSwap;
- Adding Liquidity;
- Community Airdrop;

## PHASE 3

### Availability

- Adding more Liquidity on DEX;
- Additional Listings;
- Usability optimization;

## PHASE 4

### Improvements

- Website improvements;
- Server upgrade;
- Portfolio Implementation;
- Mobile App development;
- Additional features;

# RISK WARNING

There are risk in the development, maintenance, and operation of CoinLiveWatch Token (CLWT), many of which are beyond the control of the development team. In addition to the other content described in this white paper, participants are requested to fully understand and agree to accept the following risks.

---

# Market Risk

If the overall market is down or there are other uncontrollable factors, it may cause CLWT itself to have good prospects, but the price is still underestimated for a long time. Regulatory risk

Since the development of the project is still in its early stage, there are no relevant regulatory documents related to the prerequisites, transaction requirements, information disclosure requirements, and lock-in requirements in the fundraising process.

Moreover, it is still unclear how the current policy will be implemented. These factors may have an uncertain impact on the investment and liquidity of the project.

Blockchain technology has become the main target of regulation in major countries in the world. If the regulatory bodies intervenes or exert influence, CLWT may be affected by it.

# Competitive Risk

At present, there are many projects in the blockchain field and the competition is fierce. There is strong market competition and project operation pressure. And with the development of information technology and mobile Internet, other application platforms are emerging and expanding, CLWT will face continuous operating pressure and certain market competition risks.

---

## Unforeseen Other Risk

There are risk in the development, maintenance, and operation of CLWT, many of which are beyond the control of the development team. In addition to the other content described in this white paper, participants are requested to fully understand and agree to accept the following risks.

---

## Risk of Hacking or Theft

Hackers or other organizations or countries have the possibility to interrupt the CoinLiveWatch website, applications or functions in any way, including but not limited to denial-of-SERV Market risk

Cryptography-based digital gold coins are a brand-new technology. In addition to the risks mentioned in this white paper, there are also risks that the founding team has not mentioned or anticipated. In addition, other risks may also appear suddenly or in a combination of multiple risks already mentioned.

---
